Summary

Frontend developer with strong UI skills and a solid background in testing. Experienced with React, TypeScript, and Tailwind CSS, with a passion for building accessible, responsive, and performant web applications. Proven ability to collaborate in cross-functional teams and deliver clean, scalable code that aligns with product goals.

Skills

Languages & Tools: HTML, CSS/Tailwind CSS, JavaScript, TypeScript, C#, Python

Frameworks: React, React Native, Node.js, Express.js

Databases: MongoDB, Oracle SQL

Other: Git/GitHub, WordPress, Figma, REST APIs

Projects

Expense Tracker App – React, JS, Tailwind CSS, node.js, MongoDB

- Built a full-stack app to track group expenses, filter by events, and display summaries
- Integrated RESTful API and authentication using Google Login
- Prioritized responsive design and accessibility for all user interactions

Pokémon TCGP Shopping Cards - React, JS, CSS, node.js, MongoDB

- Created a dynamic UI to browse cards by rarity, series, and packs
- Enabled user login, favorite tracking, and mock purchase system
- Designed app as a fun and functional e-commerce-like platform

Working Experience

Application Tester | Lionbridge Technologies, Inc.

Dec 2018 – July 2023

- Ensured 90%+ bug-free product releases via rigorous UI and functional testing
- Collaborated across global teams to improve time-to-release and clarity in bug reports

Education

Diploma of Software Engineering Technician | GPA 4.4/4.5 Sep 2023– Dec 2024

Centennial College, Toronto, Ontario, Canada.

Bachelor of Italian Language and Literature | GPA 3.55/4 Sep 2014 – Jun 2018

Beijing Language and Culture University, Beijing, China

Certificate

- IBM Front-End Developer Certificate
- Meta Front-End Developer Certificate
- Google Prompting Essentials
