WORK HISTORY

Application Tester - Lionbridge Technologies, Inc.   **Dec 2018 – July 2023**

At Lionbridge Technologies, I developed extensive skills in application testing and quality assurance. I was responsible for testing mobile, desktop, and Xbox applications before their release, ensuring they met the highest standards of functionality and user experience. This role enhanced my attention to detail, problem-solving abilities, and provided me with valuable experience in working with international teams

Key Achievements:
Improved Application Quality:
- Implemented rigorous testing protocols, leading to over 90% bug-free releases.

Demonstrated Exceptional Communication Skills in International Collaboration
- Effectively communicated with developers from various countries and project managers to ensure high-quality applications.
- Resolved misunderstandings promptly by leveraging multilingual abilities, reducing project delays.

Game Proofreader (Contractor) - Lionbridge Technologies, Inc　　　**July 2018 – August 2018**

In my role as a Game Proofreader at Lionbridge Technologies, I collaborated closely with international teams, which required effective communication across different time zones and cultural contexts, enhancing my ability to work seamlessly within diverse, global teams. I consistently met tight deadlines, successfully managed multiple projects to ensure timely game releases without compromising quality.

Key Achievements:
　　Successfully Published Games on Schedule:
- Ensured that all content was accurate and culturally appropriate, contributing to a smooth release process and positive user reception.
- Collaborated effectively with international teams to resolve issues promptly, preventing delays in the production schedule.
- Delivered high-quality proofreading services within strict deadlines, playing a crucial role in the timely publication and signing of games.

EDUCATION

Diploma of Software Engineering Technician　　　**Sep 2023– Dec 2024**

Centennial College, Toronto, Ontario, Canada.
[Centennial College - Software Engineer Technician](#)

By completing advanced courses in web interface design, client-side web development, and web application development, achieving a GPA of 4.4/4.5, I have developed strong front-end development skills that prepare me to contribute effectively to professional development teams.

Relevant Courses Completed:
- COMP-213 Web Interface Design
- COMP-125 Client-Side Web Development
- COMP-229 Web Application Development

Key Achievements:
- GPA 4.4/4.5
- [My projects](#)
